everlin

Meet Everlin, modular seating designed to bring structure and flexibility to your space. Each fully upholstered piece features subtle angles in the seat and back, while connecting seamlessly to form 90-degree layouts. The result is a cohesive, dynamic look that adapts as needs change. Backed by EnduraFrame construction, Everlin is built for consistent, long-term use.

Design

Everlin's design is defined by clean, purposeful angles that give each piece a distinctive profile. The seat, back, and front surfaces are subtly contoured, creating visual interest while maintaining a cohesive, fully upholstered form. When arranged, the pieces form crisp 90-degree turns that bring clarity and rhythm to any space, making each configuration feel intentional and thoughtfully composed.

Performance

550 lb weight rating for exceptional durability

All foam components are environmentally friendly and California TB117 compliant

India tape is utilized in the seams to ensure Everlin is kept bedbug proof

Everlin's frame is constructed of solid American hardwood with 3/4" Canadian plywood components

All joins in the wood are glued and stapled to double the strength
