innsbrook

Innsbrook brings an inviting presence to busy commercial and public environments. Its fully upholstered form offers comfortable seating in a clean, versatile profile that works naturally across higher education, libraries, civic spaces and other shared settings. Designed for everyday use, Innsbrook balances a welcoming aesthetic with the construction and performance expected from Flexxform.

Design

A substantial upholstered form, gently rounded edges and tailored detailing give Innsbrook its distinct character. The continuous silhouette feels grounded and architectural, while subtle curves and defined seams soften the overall form. A broad range of upholstery options allows Innsbrook to take on a more understated or expressive character depending on the space.

Performance

Enduraframe certified

550 lb weight rating for exceptional durability

All foam components are environmentally friendly and California TB117-2013 compliant

Reinforced seams keep Innsbrook's stitching strong and bedbug proof

Innsbrook's frame is constructed of solid American hardwood with 3/4" Canadian plywood components

All joins in the wood are glued and stapled to double the strength
