- Power integration
- Dual polarity magnetic ganging*

Support Profile

Upholstery + Finishes:

The Korvela collection supports the Flexxform graded-in program for coated or woven upholsteries. Korvela upholstery must be cut up the roll, and pattern repeats should be considered accordingly when specifying fabrics. For upholsteries not included in the graded-in program, please contact Customer Service for pricing. To view the list of unsuitable upholsteries for the Korvela Collection, please see the last page of the Graded-In Program.

Bench tops are available in a variety of laminate finishes, with Corian® as an optional upgrade. Laminate grain must run back to front (up the grain) on all tabletops. View our full selection at www.flexxform.co/finishes.

Warranty:

The Korvela collection is covered under Flexxform's 25-year warranty. For more information, visit www.flexxform.co/warranty.
